PROFESSIONAL SUMMARY

Results-driven entry-level Data Analyst with hands-on experience in Excel, SQL, Power BI, and Python for dashboard development, reporting automation, data cleaning, and business analysis. Experienced in analyzing 500+ customer interactions weekly and managing KPI-based reporting in fast-paced business environments. Skilled in transforming raw datasets into actionable insights using Power BI dashboards, SQL queries, and Excel tools. Currently pursuing MCA specialization in Artificial Intelligence and Data Science.

TECHNICAL SKILLS

- Excel: Pivot Tables, Power Query, VLOOKUP, Conditional Formatting, Dashboard Reporting
- SQL: Joins, Subqueries, Aggregations, Data Filtering, Query Optimization
- Power BI: KPI Dashboards, DAX Basics, Data Visualization, Interactive Reports
- Python: Pandas, NumPy, Data Cleaning, Exploratory Data Analysis
- Tools: GitHub, Canva, PowerPoint, CRM Systems
- Data Analytics: Reporting Automation, Business Intelligence, Data Transformation, KPI Monitoring

PROJECTS

Sales Dashboard Analysis

- Created an interactive Power BI dashboard using 10,000+ sales records to analyze revenue trends, regional sales performance, and KPI metrics.
- Reduced manual reporting effort by approximately 60% through automated visual dashboards and filtering systems.

Face Recognition Attendance System

- Developed a Python-based attendance system capable of recognizing 50+ registered users in real time using OpenCV and Tkinter.
- Reduced manual attendance processing time by nearly 80% through automated face recognition.

HR Analytics Dashboard

- Designed a Power BI HR dashboard analyzing 2,000+ employee records to track attrition rate, workforce trends, and departmental performance.
- Generated automated KPI reports improving HR reporting efficiency and decision-making visibility.

Contact Management System (C, GTK+)

- Built a CRUD-based desktop application supporting management of 1,000+ contact records with fast search and update functionality.
- Improved record retrieval efficiency using structured data handling and optimized search operations.

WORK EXPERIENCE

Customer Service Executive — Concentrix | Jul 2023 – Jul 2024

- Analyzed 500+ customer interactions weekly to identify recurring service issues and improve response efficiency by 15%.
- Managed CRM records and KPI dashboards while handling 200+ customer cases daily across sales and support operations.
- Consistently achieved monthly sales targets while maintaining 90%+ customer satisfaction scores.
- Generated weekly customer insight reports supporting data-driven business decisions and service optimization.

EDUCATION

- Master of Computer Applications (MCA) – Graphic Era Hill University (2024 – Present) | Specialization: Artificial Intelligence & Data Science
- Bachelor of Computer Applications (BCA) – Himalayan Garhwal University | 71%
- Class 12 (CBSE) – K.V. Birpur | 75%
- Class 10 (CBSE) – Army Public School | 72%

CERTIFICATIONS

- AI in Excel
- Basic Computer Course (BCC)
- Common Service Center (CSC) Certification
- Telecommunication Engineering Center (TEC)

ADDITIONAL INFORMATION

- Immediate Joiner
- Willing to Relocate
- Languages: English, Hindi
- Strong experience in customer analytics, reporting, and dashboard monitoring
